now opening this up as a 2 day course to allow people
to get more time to practice and

focus on each subject rather than having to cram everything in.

This course is for people who are beginners and advanced in the Psychic/Mediumistic work.

This course is run on a very down to earth basis, with step by step instructions, one on one work with Gary, full information on each subject covered, paperwork to take away with you so you don't spend the day making notes.

The only rule Gary has is that you come to have fun and with an open mind and heart to learn!
